

# Home Quest #6

## Invite a Butterfly to Your Yard

Invite a butterfly to your yard by planting one of many butterfly larva host plants in your garden. What is a butterfly larva host plant? It is a plant where a butterfly will lay its eggs and where its larva will feed until they grow into caterpillars. Here are some plants to consider and the species that uses the plant:

PLANT:

White Turtlehead

TYPE OF BUTTERFLY:

Baltimore Checkerspot

Spicebush

Spicebush Swallowtail

Pawpaw Tree

Zebra Swallowtail

Milkweed

Monarch Butterfly
